REVIEW OF PRESTON GOLF SHOE

Buying golf shoes is one of the most important and tricky things you will buy. They can have a huge impact on how well you play the game and how comfortable you will be while you are out on the course. During a normal round of golf you might be wearing the shoes for up to 6 hours or so, mostly while standing on your feet and walking as much as 7 miles in that time. Needless to say, you want a pair of shoe that FIT your feet and give your feet the proper support they need.

* ONE THING TO REMEMBER WITH CROCS GOLF SHOES IS TO GO UP ONE SHOE SIZE.

The men's Preston is very lightweight. At just 10 ounces making it among the lightest golf shoes on the market . It's just great shoe for on or off the course. Preston also has a great fit.

REVIEW OF BRADYN GOLF SHOE

For what it's worth, a lot of golfers find that the newer Athletic style of golf shoes is more comfortable than the older more traditional

style of golf shoe. And the Bradyn does just that. It just a good all-weather golf shoe. The Crocs spikeless bottom is worth it's weight is gold. They are great when walking on the cart path. Or walking on the hard floor in the clubhouse.

REVIEW OF DRAYDEN GOLF SHOE

The Drayden have a breathable CrosMesh, that allows for cooling ventilation on warm days, making it the perfect shoe for warm golf climates. This is a must have for a hot summer day. Your feet will not get hot in these shoes. It has a great feeling when the wind blows in your shoes.

Never had a golf shoe do that. When it's 95 plus I am changing my socks on hole #10. The breathable CrosMesh will stop me from doing that. This is my new summer golf shoe.

I have to say the Crocs golf shoes took me by surprise. They have a feel like no other golf shoe I have tried. And I think they are underpriced. The great thing about that is you can now buy two pairs. On a scale from 1 to 10 (10 being the best). I give all the Crocs golf shoes a 10!!!
